## Why Gassner?

**GASSNER has been inspiring customers in the stainless steel pool sector for more than 50 years with bespoke, high-quality solutions and exceptional design.**
**GASSNER also covers other business areas such as contract manufacturing and the production of elements for transport technology.**

With a team of over 65 employees, GASSNER has developed into an established company in the swimming pool industry and in stainless steel pool construction.

**GASSNER offers its customers and partners a unique overall package:**

- Personalised advice
- Showroom at our location
- Advanced 3D planning
- Project planning and project support
- Production using state-of-the-art CNC technology
- Complete assembly including water treatment
- Service and maintenance
- Made in Austria

# Stainless steel pools from Gassner

## IMMERSE YOURSELF IN PERFECTION:

- Exclusive, stylish and timeless look
- Indestructible and yet permanently workable material
- Dimpled tread and floor – at no extra charge
- Built-in parts permanently welded tight
- Round transition from floor to wall
- No dirty edge and ideal conditions for wall-to-wall vacuum cleaners
- Customised solution of size, shape and style
- Easy cleaning and care offer optimum hygiene properties
- Stainless steel pool, water treatment and maintenance from a single source

**Decades of experience in the processing of stainless steel and in swimming pool construction, combined with new ideas and developments, ensure constant innovation and top quality.**

# Fascinating accessories:

## THE CUSTOMISATION OPTIONS TO MEET THE CUSTOMER'S NEEDS ARE JUST AS INDIVIDUAL AS THE DESIGN OF THE POOL.

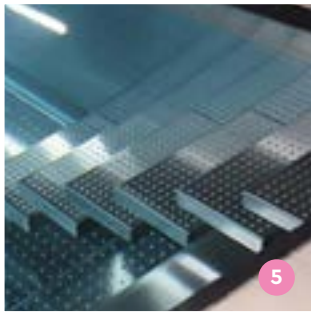

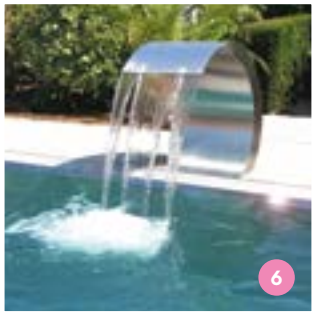

1. Ergonomically shaped Air bubble lounger
2. Tubular bench seat
3. Wave reflection edge

4. Wall-mounted components flush-mounted
5. Cantilever staircase
6. Splash shower

# MIRROR POOL

STAINLESS STEEL LUXURY POOLS

## Design meets pure elegance

Minimalist design, clean lines, and perfect craftsmanship. The Mirror Pool invites you to immerse yourself in a mirror-like water surface that blurs the boundaries of the pool, thanks to its uninterrupted, linear perspectives, creating a sense of limitless expanse. An elegant stainless steel basin with an innovative edge and premium materials come together in a composition that reflects both sophistication and modern aesthetics.

- Timeless design, clean lines, and pure elegance
- Unique pool edging for a mirror-smooth water surface
- Seamless waterline for a visually limitless expanse
- Stainless steel as a durable and long-lasting material
- Superior hydraulics for optimal water quality
- Easy cleaning
- One-piece basin for efficient transport and installation
- Available in standard as well as custom sizes
- Additional accessories and custom features available for enhanced comfort.

## Mirror Pool - Boundless Expanse

The pool edging, designed with a linear perspective, creates an unprecedented, calm, and smooth reflection of the water's surface, crafting a breathtaking world of relaxation – right in your own garden.

Designed as a one-piece basin, the Mirror Pool impresses with its short construction and delivery time. With a variety of attractive product packages available, each can be customized to meet your individual needs.

# Pure indulgence and a sound investment !

## BLOKIT SYSTEM STRONG AND SIMPLE, LIKE ALL THE BEST IDEAS

ACCREDITATION CSTB ACCREDITATION

*Accreditation means lower insurance policies.*

EXPERIENCE 30 YEARS EXPERIENCE

MADE IN FRANCE

**BLOKIT®SYSTEM pools are made of reinforced concrete.**

Introduce colour into your pool by coordinating your pool fittings, liner and automatic cover.

### Modular formwork sets

Modular formwork sets BLOKIT®SYSTEM apart . The formwork can be put together much more easily, much faster and much more cleanly than conventional formwork.

This reduces the impact on your garden and shortens the time required to build your pool.

BLOKIT®SYSTEM modules are designed and manufactured in accordance with the most stringent industrial standards. It is a quality product.

### The right solution for all your needs

With BLOKIT®SYSTEM, you improve your social status, indulge yourself and your family, and you increase the value of your home.

Choose the colour of your pool by matching your pool fittings, liner and automatic cover.

## Between 3° and 5° warmer in a BLOKIT®SYSTEM pool than in a conventional pool.

# Three advantages in one ingenious concept.

WITH BLOKIT®SYSTEM

## Blokit system designed to last :

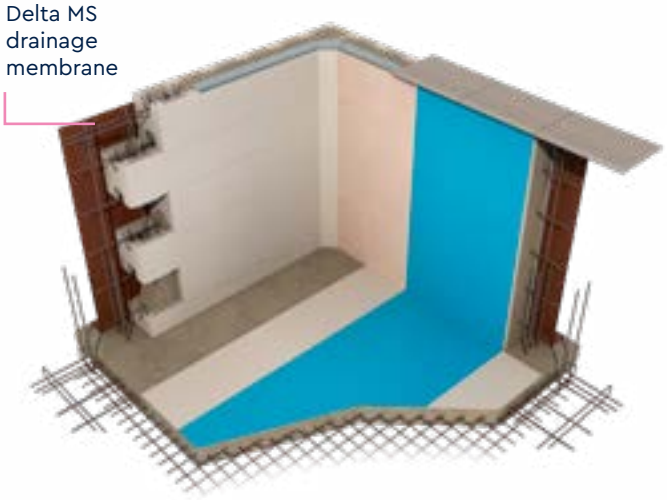

In addition to being exceptionally strong, BLOKIT®SYSTEM pools are protected by the two thick, thermally insulating walls of the formwork modules.

There is an insulating layer between the water and the concrete wall, and another between the concrete wall and the earth.

This produces a Thermos effect that keeps the pool a few degrees warmer than an ordinary pool.

## Both a formwork block and a thermally insulated box: A simple, clever design.

Delta MS drainage membrane

1. **Modular, lightweight formwork that fits together rapidly**
   fewer complications, less work.
2. **Effective thermal insulation:**
   warmer water
3. **Smooth inner surfaces:**
   the pool walls look flawless, even lit by the unforgiving underwater pool lights.

## The strength of concrete harnessed in free form pool shapes and floors !

## BLOKIT READY-TO-SWIM

Family 10000

### Polystyrene swimming pool kit 6 × 3 m or 8 × 4 m, wide steps, grey liner

BWT myPOOL polystyrene swimming pool kits are genuine reinforced concrete pools with a modern design and isothermal formwork.

It comprises a set of cast-in-place polystyrene bricks, making construction quick and easy. A high-quality, low-cost DIY solution that offers a great alternative to traditional swimming pools!

### These packages include:

- The pool structure (polystyrene blocks, stairs, fittings, etc.)
- The filtration equipment (pump, liner, etc.)

### Pool details:

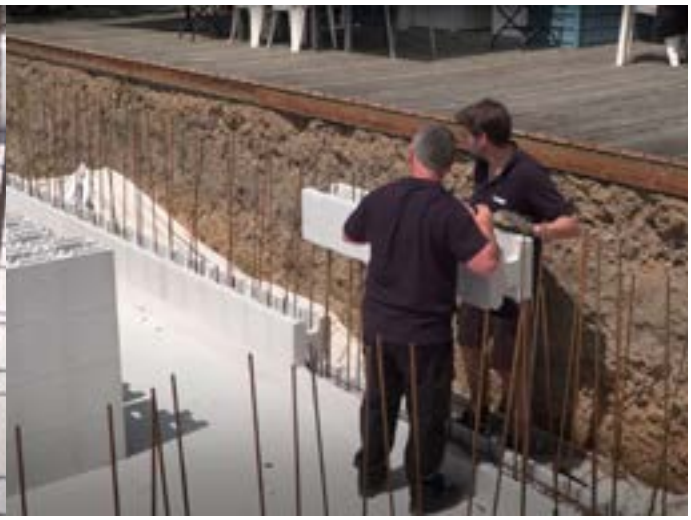

- Dimensions: 8 × 4 × 1.5 m, i.e. 32 m² of surface area and 48 m³ of water volume
  6 × 3 × 1.5 m, i.e. 18 m² of surface area and 27 m³ of water volume
- Position of stairs: left, central, full width or right
- **Liner colour: grey**

# A ROBUST, SOLID STRUCTURE

## Paradis bleu pools, a proper in-ground pool:

Our PARADIS BLEU rectangular pool kits are the perfect solution for customers looking for a simple, affordable pool that is very easy to build.

PARADIS BLEU pools are designed to be built in-ground without any great physical or financial effort.

### A stable material

- The panels are manufactured in series by injection of synthetic resin, a very strong, rot-proof and unalterable, recycled material.

### Clever Design

- Reinforcing ribs run the width of panels for even greater strength.
- Closely spaced supporting braces hold the panels together and ensure the rigidity of the structure.
- Aluminium hung liner locking track runs across the top of the panels further enhancing the rigidity of the structure.

### MADE IN FRANCE

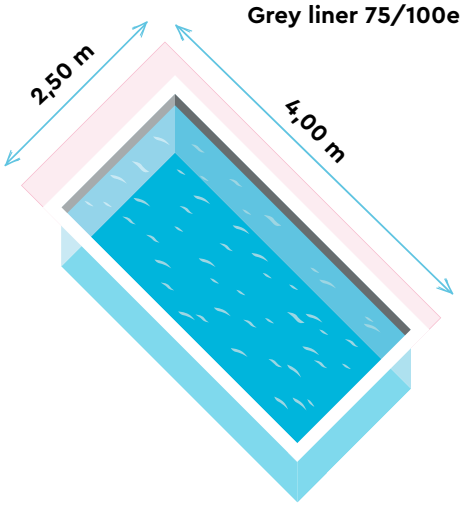

- Every component of your kit is made in a factory owned by a leading French manufacturer of pool and spa equipment.
- Full (non-degressive) 10 year guarantee on the panels.

## PARADIS BLEU MINI-POOLS MyPOOL

# The ideal way

## TO ENJOY A BEAUTIFUL, ROBUST POOL QUICKLY AND AT A LOWER COST!

PRODUCT + 40 YEARS PROVEN SINCE

GUARANTEE 10 YEARS BWT myPool

**Everything from panels to maintenance accessories is included. The kit is all you need to build the beautiful swimming pool of your dreams yourself, easily and on a reasonable budget.**

### A real in-ground pool

The paradis bleu swimming pool is designed to go in-ground. Once built and integrated into your outside space, it looks exactly the same as a conventional pool.

Bwt paradis bleu pools are designed for easy assembly, without physical exertion or financial strain.

### Aesthetic design

With its future-proof structure and meticulous finish, the bwt paradis bleu pool offers you the quality and beauty of a traditional pool, with the added benefits of a kit.

It comes in a rectangular shape with a flat base in a range of dimensions.

### A sustainable choice

The bwt paradis bleu pool kit panels are durable and dimensionally stable, and come with a 10-year non-degressive warranty.

All the components in your kit are manufactured in the factories of **france's leading manufacturer** of pool and spa equipment. The quality and durability of these materials have ensured their popularity for over twenty years

### Intelligent design

Reinforcing ribs run the full width of the panels for even greater strength.

Close-fitting struts hold the panels together and ensure the structure's rigidity.

An aluminium hung fastener caps the panels and makes the whole unit more rigid.

### A durable material

The panels are mass-produced using polymer resin injection. They are rot-proof and durable. The high impact polystyrene used in these products is made entirely from eco-sourced and recycled plastics.

## A foolproof structure!
